NUTRITION NEWS

What's IN your FOOD?

There is a lot of great information on the labels on the food you purchase. Our goal in January is to learn about some of that information so we can make informed, healthier choices. How much sodium, sugar, fiber, or carbohydrates should we be checking for? How big should one serving be? These are some of the topics we will be investigating. We are planning on becoming 'food label reading champs'!

Happy New Year.
